

TECHNICAL PROGRAM

Schedule for PGS Technical Presentations and Posters at PETEX 2018, London

TUESDAY 27TH NOVEMBER 2018

- 13:30**
POSTER SESSION 3
The Coherence Function as a Quality Control for Multiple Modelling
Presented by Maiza Bekara (PGS) & C. Davison (PGS)*
- 14:30**
HALL 1
Least-squares Full Wavefield Migration for Shallow Geohazard Analysis: A North Sea OBC Case Study
Presented by Tony Martin (PGS), Faqi Liu (PGS), Shaoping Lu (PGS), Jens FASTERLING (Total) & Jim Musser (Total)*
- 14:45**
POSTER SESSION 2
Quantitative Interpretation Of Chalk Reservoirs For Lithology And Fluids Prediction - Integrating Regional Rock Physics And Multicomponent Broadband Seismic Analysis
Presented by Cyrille Reiser (PGS), N. Pernin (PGS), T. Bird (PGS) & L. Goswami (PGS)*
- 15:15**
POSTER SESSION 3
A New Approach For Taper Design In A 3D FK Filter
Presented by Maiza Bekara (PGS) & L. Duan (PGS)*
- 16:00**
POSTER SESSION 3
True Multiple Adaptive Subtraction
Presented by Yi-Jie Liu (PGS)*

WEDNESDAY 28TH NOVEMBER 2018

- 10:00**
HALL 2
Successes, Challenges and Future Opportunities in the Pre-Salt Kwanza & Benguela Basins of Angola; Predicating where the Best Oil Charged Reservoirs Might be Found
Presented by Pierre Le Barbanchon (PGS), Alex Vartan (PGS) & D Cunha (Sonangol)*
- 14:00**
HALL 2
Imaging and Evaluating Complex Pre-Salt Carbonate Environments: An Eastern Mediterranean Sea Velocity Model Build Case Study
Presented by Marcus Bell (PGS), Amir Asnaashari (PGS), Stuart Fairhead (PGS) & William Powel (PGS)*
- 15:00**
HALL 2
4D Analysis, Combining Shallow Hydrophone and Multi-Component Streamer: The Cinguvu Field Offshore Angola Example
Presented by Cyrille Reiser (PGS), B. Webb (Eni, Italy), M. Bertarini (Eni, Italy), D. Lecerf (PGS) & C. Rizzetto (Eni, Angola)*
- 15:00**
POSTER SESSION 2
Why is Everyone Excited about the Sao Tome and Principe Eez; The 4 Key Reasons Why this has been One of the Hottest Areas for Exploration in 2017
Presented by Matt Tyrrell (PGS), O. D'Abreu (ANP-STP) & E. Mueller (PGS)*
- 16:00**
MAIN AUDITORIUM
Unveiling Near-Field Potential through Reliable Pre-Stack Broadband Attributes: An Integrated Case Study from the Tertiary Injectite Play in the North Sea Viking Graben
Presented by Noemie Pernin (PGS), C. Reiser (PGS), T. Bird (PGS) & L. Feuilleaubois (PGS)*
- 16:15**
POSTER SESSION 3
Velocity Model Building Over Complex Geological Regimes: A Case Study Using An Iterative Velocity Model Inversion Approach
Presented by Xiaoyan Jiang (PGS), M. Aydin (PGS), B. Viriouviet (PGS) & A. Lewis (PGS)*
- 17:00**
HALL 1
A New 4D Approach to Compensate Illumination Differences of Non-Repeated Time-Lapse Acquisitions
Presented by Didier Lecerf (PGS)*
- 17:15**
POSTER SESSION 2
The Underexplored Shelf-Edge Plays of the West Africa Transform Margin and the Opportunity to De-Risk these on Merged 3D Seismic and Well Datasets through Togo, Benin and Western Nigeria
Presented by Matt Tyrrell (PGS), M. Martin (PGS), A. Ashfield (PGS) & B. Biauou (SOBEH Benin)*

INTERNATIONAL PAVILION PRESENTATIONS

Schedule for presentations at PETEX 2018, London

TUESDAY 27TH NOVEMBER 2018

14:00 Offshore Lebanon Prospectivity and the 2nd License Round

Presented by Wissam Chbat, Head of Geology & Geophysics and Board Member, Lebanese Petroleum Administration

15:30 Overview and Prospectivity of Ghana License Round

Presented by Christine Roche, Project Geoscientist, PGS

WEDNESDAY 28TH NOVEMBER 2018

14:00 Egypt's West Mediterranean Sea – An Exploration Opportunity

Presented by Matthew Pyett, Project Geoscientist, PGS
